

[Supreme Court verdict for IPISC insured, Octane Fitness, a 'Victory for the Entire Industry'](#)

In pursuing the case, Octane Fitness was aided by Intellectual Property Insurance Services Corporation (IPISC). IPISC's president, Robert Fletcher, played a key role in connecting the fitness company with Rudy Telscher. He notes that [Telscher](#) is one of the "go-to people" whom IPISC recommends, and, after the 9-0 decision in the Octane case, [Fletcher](#) sees potential changes in the IP insurance industry. [IPISC President featured in the May issue of Automotive Industry](#)

Intellectual property (IP) infringement, for example the sale of counterfeit parts, plagues the automotive industry worldwide. A second major IP-related problem plaguing the Auto Industry is patent "trolls," where a non-practicing investment company/ entity (NPE) purchases an overly-simple patent, then serially demands royalty payments from multiple, legitimate practicing businesses, threatening expensive litigation if they don't pay. The automotive industry is fighting back, but litigation is very [expensive](#), whether allegations are legitimate or frivolous. Read the article in *Automotive Industry* [here](#)...

[Patent Insurance Makes its Mark](#)

IPISC graciously accepts a share of the credit as it congratulates Octane Fitness, LLC for its unanimous patent victory in the United States Supreme Court, announced April 29, 2014. Read the entire release [here](#)...

[Abatement Insurance is the Solution](#)

Your clients, from start-ups to established companies, may very well have IP rights in patents, trademarks and/or copyrights, therefore exposing them to the [risk](#) of becoming involved in costly, IP infringement litigation. Your clients must be able to effectively enforce and protect their IP rights. You need to take your clients' IP exposure inventory to determine if they have IP rights and, if so, they need [Abatement](#) insurance to help pay the litigation expenses needed to enforce their IP rights.
